Igbo

ABOUT ME

Hi! My name is Nwobi Samuel, and I'm a passionate tech developer. I love creating innovative solutions, building useful applications, and exploring new technologies that can make people's lives easier. I'm always learning and improving my skills to stay ahead in the ever-evolving tech world

PROJECTS

Online Voting System

- Developed a secure online voting platform for student elections.
- Integrated user authentication and real-time vote counting.

Quiz Site

- Built a dynamic quiz website with user score tracking and responsive design.

Weather App

- Created a weather forecast web application using API integration for real-time data.

E-commerce Website

- Designed and developed a full-stack e-commerce platform with user accounts, product listings, and shopping cart functionality.
